

Miss You Darling

Lyrics & music: Clarence B Thunborg

Another night without you
Miss you smile while I wake up
Rest on my shoulder
with your wild morning hair
Your warm naked body
No clothes,
nothing holding us up now
Look at the ceiling,
wish you were here
You so far away from me
You so far away from me

Miss you darling
Feel agony and pain
Miss you darling
I longing to see you again
Miss you darling without you...

Another day so far away
Wish I could stay
That's our life,
I got to go away

Miss holding you close/y,
whisper in your ear
Stare at the ceiling,
imagining you are here
You so far away from me
You so far away from me

Miss you darling
Feel agony and pain
Miss you darling
I longing to see you again
Miss you darling
Without you it's not the same,
not the same
Without you it's not the same

We hold on together
in this rollercoaster ride
Girl you make me feel so alive

Miss you darling...
